The Sit  Stay  Play Report

Mid-Day Play

Our mission
Providing quality care to every pet, for every family,
with love, compassion, comfort, and commitment.

December 2020

I normally don't feel one way or another about the end of any given year. However, I am definitely looking forward to the END of 2020! 😊 How about you all? This year has been very different, challenging and unexpected for sure. What has been a blessing though is that the dogs in our care still provide us with unconditional love, regardless of Covid, the election or the condition of the economy! Dogs are such an amazing animal that provide so many benefits to us humans that we may not even realize. Did you know that dogs can sniff out cancer? Did you know that a dog's sense of smell is up to 100,000 times greater than ours? If you want to do something fun this winter, set up a find it course in your house! Put a treat in one out of 10 boxes, in one out of 10 shoes or in one out of 10 rolled up rags! I always LOVE to see my dogs sniff something out, usually a mouse in some tall grasses! Check out the website below for more information on some cool research!

WINTER SAFETY FOR YOUR DOGS

Cold weather has arrived! The use of salt on sidewalks and driveways can burn and cause irritation on the pads. You can use a product called **Mushers** on your dogs' paws that helps repel the salt. Or, for those more adventurous owners, try putting boots on your dogs! It makes for a hilarious video!! Cold temperatures on the concrete can also be irritating and problematic. The other thing to keep in mind is the temperature. If it is colder than 20 degrees, keep an eye on your pooch when they are outside! Hypothermia can set in quickly!!
